

Backflow In A Box®

A successful Cross Connection Control and Backflow Testing Program can be a challenge to implement and maintain. Many water systems need help, but... Where should they start?

Without the proper tools and guidance, water systems often have difficulty following-through on crucial pieces of their program, leaving themselves and their customers vulnerable to potentially hazardous, costly situations.

Backflow Management Inc. has drawn on over 30 years of experience to effectively address this problem with **Backflow In A Box®**, a comprehensive package that aids in implementing and maintaining a *cost-effective, legally-defensible* Cross Connection Control and Backflow Testing Program.

The components of Backflow In A Box® include:

- ◆ Customized Enforcement Document
- ◆ Comprehensive Guidance Manual
- ◆ Public Education Materials
- ◆ Cross-Track 5.2 Software

Components may also be purchased separately. Contact us for details.

Help is here! Accomplish in days what could otherwise take years to achieve with Backflow In A Box® from BMI
