---

## CHECK LIST OF ADVANTAGES FOR BRINGING THE TRAINING TO YOU

- ✓ No travel expenses
- ✓ Staff are available for emergencies in the District
- ✓ Training is developed for your system
- ✓ “Hands-On” training with **your** personnel in **your** system on **your** topics
- ✓ Total training expenses are determined in advance for budgeting
- ✓ We take care of CEU’s for Operators

Classes are pertinent to your needs & designed to build skills, not just the accumulation of unrelated CEU

**4 Hours,  
1-Day, 2-Day, or ???**

You decide how to split your staff so your workload is not impacted

You decide if you want neighboring systems to attend with your staff to offset some of the cost

---

Our Instructors have extensive classroom and practical field experience. We are dedicated to training Water Operators of systems of all sizes in understanding the regulations and the importance of their jobs

**Comments from our class evaluations:**

*“As a new operator of a small system this helped a lot”*

*“This class was great - great instructor”*

*“It was a full 2 days of valid and pertinent information. I’ll end up using it all”*

*“Just wanted to let you know I passed the exam for WTPO 3. I appreciate the time you expend providing training to operators like myself.”*
